

# Welcome to Alpha House

Welcome to Alpha House where I am pleased to offer a private clinic dedicated to providing high quality orthodontic treatments using up to date techniques in comfortable, contemporary surroundings. My sole aim is to provide the highest possible standard of orthodontic care and service for my patients using evidence-based procedures that offer predictable and reliable results. I look forward to meeting you.

**Orthodontics can transform your smile by gently realigning your teeth and correcting bite problems. This not only gives you a confidence boost, but also improves your oral health by making teeth easier to clean and reducing the risk of cavities and gum disease. Orthodontics can address crowding, misalignment, bad bites, and gaps, giving you a functional and aesthetically pleasing smile.**

If you require orthodontic treatment or would like some advice, your dentist will make a referral. You may also contact us directly to arrange a consultation.

## SELF-REFERRAL

## About Daryl

### Dr Daryl Crasta

BDS 2007; Postgraduate Specialty Training in Orthodontics and Dentofacial Orthopaedics 2011; GDC No. 294874

Dr Daryl Crasta is a passionate about orthodontics and is dedicated to creating beautiful, healthy smiles for patients of all ages.

After receiving his bachelor's degree in Dental Surgery in 2007, Daryl went on to pursue a 3-year Post Graduate Specialty training in Orthodontics and Dentofacial Orthopaedics which he completed in 2011.

Daryl works as a Specialty Doctor in Orthodontics at Medway Maritime NHS Foundation Trust Hospital where he treats a wide range of complex Orthodontic cases.

Daryl is committed to keeping updated with the latest techniques in the rapidly evolving science of Orthodontics. Through this he can continue to help his patients achieve remarkable treatment results with customized treatment plans and evidence-based orthodontics using advanced orthodontic techniques such as Invisalign, metal & ceramic braces, Incognito lingual braces and mini-implants. The latest 3M digital bonding technology which boasts more accurate and efficient orthodontic bonding can also be provided.

Daryl believes in providing personalised, compassionate care to each patient. He understands that orthodontic treatment is an investment, and he is committed to working with patients to develop a treatment plan that fits their individual needs and budget.

For Daryl, Orthodontics is more than just straight teeth, but the science and art applied to achieve exceptional facial and smile aesthetics.

## INFORMATION FOR PATIENTS

### Dr Daryl Crasta

BDS 2007; Postgraduate Specialty Training in Orthodontics and Dentofacial Orthopaedics 2011 GDC No. 294874

At Alpha House it is important to us that patients:

- ☞ Feel totally comfortable with our service before, during and after treatment;
- ☞ Fully understand the procedure and stages of the treatment (this will be discussed at the consultation appointment);
- ☞ Feel able to contact us at any time with queries or advice;
- ☞ Be assured that by choosing us to provide your orthodontic treatment that registration with your dentist will not be affected.

You can be assured that we will:

- ☞ Provide clear, written treatment plans including costs;
- ☞ Follow agreed professional standards for the provision of your dental treatment;
- ☞ Follow professionally agreed protocols for the prevention of cross infection;
- ☞ Provide a friendly, welcoming environment;
- ☞ Aim to run to your appointed time.

As a patient receiving treatment, we ask that you:

- ☞ Commit to attending the dental appointments you have made;
- ☞ Pay for each visit as required in your treatment plan;
- ☞ Understand that sometimes procedures take longer than planned and therefore we may occasionally run late;
- ☞ Follow the advice we give you around dental hygiene and care of your orthodontic appliance;
- ☞ Recommend us to your friends, family and colleagues. We believe the practice grows best through referrals from patients who are happy with the care they have received from us.

## Further Information

A comprehensive set of Orthodontic Patient Information Leaflets have been produced by the **British Orthodontic Society** and provide useful information if you are considering orthodontic treatment.

Visit: [www.bos.org.uk](http://www.bos.org.uk)
